It is a wonderful feeling to see the enthusiasm of children at this age. Very good knowledge and very confident. Taksh, Akshat, Kishore, Shrestha, Vedant, Ananya, Satvish are the best student I find in the exhibition. Your french exhibition is also very good. All the best to all students. Stay Blessed.

Commandable performance by every child in craft assignment. All teachers are most appreciable. Keep on ^{doing} good work. Thanks. Shabnam Hakim - Shabnam.

The exhibition organised was great. All the models & sketches were too good.

Very impressive demonstration of beautiful artwork done by students. It is a clear indicator of the guidance and support they are able to receive here from the school and the teachers. Very happy to see this.

The work done by students is extraordinary. I am very happy to see the ideas and imagination of kids on paper.
Best of luck

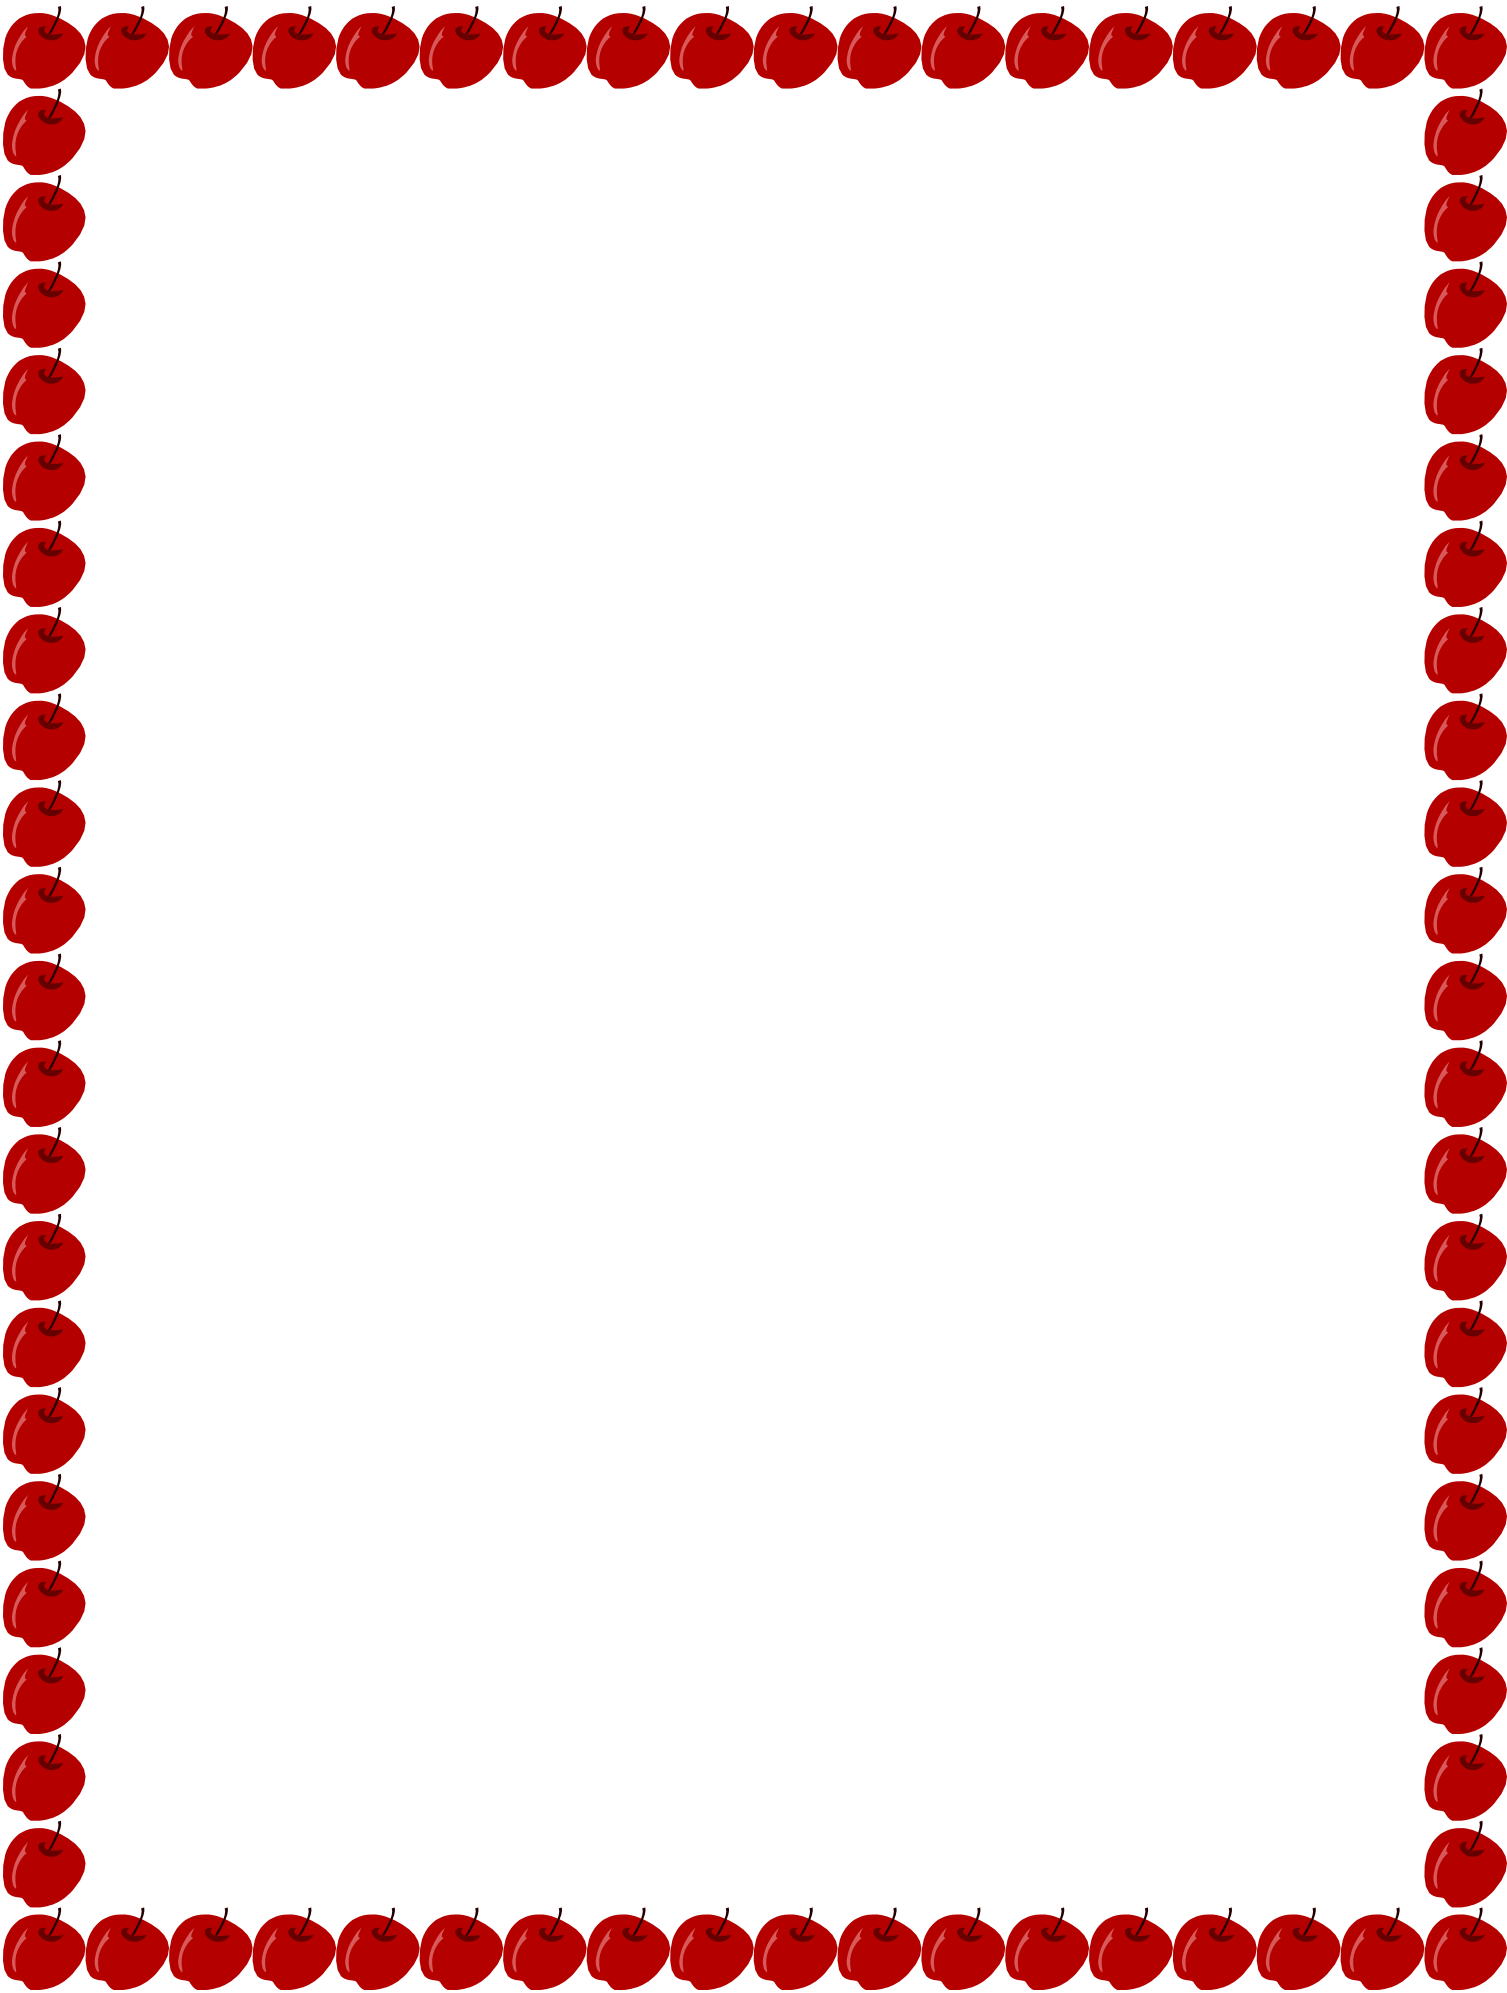

A novel way of exhibiting the excellent work done by these laborious students during their summer holidays! Keep it up. Kudos to all the participants.

Ak Chauhan

It was great experience and got exposure for the kids please organize more and more exhibitions like this in near future

Ak Chauhan

Good effort made by students
especially in drawing

and in painting

Good work by students, well done
best of luck for future.

Dr. Faisal

Excellent efforts by students, really worth
appreciating. I have almost visited all the
promising exhibitors here and listened to their
presentations. I have developed a deep admiration
for their scientific understanding. My best wishes
to them. I also appreciate the efforts of the
teachers who seem to have worked so hard to
help the students. An amazing experience overall.
